

MD EXPO

SAFE + CLEAN MEETINGS

We are dedicated to ensuring exhibitors and attendees can do business in a safe environment. Here's what we're doing to protect your health.

We have an obligation to lead the way for the HTM industry to get back to business. We are compelled to step up and demonstrate how we can get our events to follow protocol with the new normal. So, we've put together our plan to showcase the most cutting-edge safety measures available right now and implement them at our shows. Take a moment to read our new Safe + Clean plan.

SAFETY

Masks are suggested for participants and staff. Masks will be provided for any conference participant who needs one.

CLEANLINESS

Hand sanitizer stations will be available throughout the event, on the trade show floor and in common areas.

The hotel will implement increased frequency of sanitization with EPA-certified cleansers that are CDC-compliant of public spaces.

HEALTH

Daily health screening, including temperature checks for all hotel staff in addition to frequent sanitization of all associate common areas and thorough re-training on proper hygiene and best practices.

SOCIAL DISTANCING

Larger aisle ways with dedicated travel lanes in the trade show to help manage traffic. This will keep attendees from bumping into each other or crowding in certain areas on the trade show floor.

Education sessions will be set up to allow for 6' space between chairs.

Signage and distance indicators will be used throughout the hotel in high-traffic areas to allow for and encourage proper social distancing.

FOOD & BEVERAGE

F&B will be provided in a no-contact way (i.e. pre-packaged food, no self-serve buffets, etc).

OUTDOOR SPACE

Indoor/outdoor spaces will be used as much as possible for receptions, education sessions and other breakouts during the conference.
