## ARIF SUBHAN

- Former Chief Biomedical Engineer, VA South Texas Health Care System & Nebraska Western-Iowa Health Care System
- Former Senior Clinical Engineer, Masterplan (national ISO with 1400 accounts in 30 states)
- Former President, American College of Clinical Engineering
- Adjunct Professor, Biomedical Engineering, University of Connecticut
- Columnist, Journal of Clinical Engineering
- Member Editorial Boards – AAMI BI&T journal, 24x7 magazine, Journal of Clinical Engineering
- Author of Book chapters for the "Clinical Engineering Handbook", "Encyclopedia of Medical Devices and Instrumentation" and "A Practicum for Biomedical Engineering and Management Issues"
- Recipient:
  - 2022 ACCE Tom O'Dea Advocacy Award
  - 2013 ACCE Professional Development/Managerial Excellence Award
  - 2012 AAMI Clinical/Biomedical Engineering Achievement Award

Orlando, FL • October 29-31, 2023

*As an HTM professional, it's important to know what factors can help **grow** and **enhance** your career. Many professionals fail to recognize the important role that **national professional organizations** like the Association for the Advancement of Medical Instrumentation (AAMI), and American College of Clinical Engineering (ACCE) and regional/local organizations like state biomedical associations play in providing opportunities to move ahead in their career.*

*Professional organizations provide valuable resources for career development by providing access to **networking, professional development, advocacy and resources**. As a member of a professional organization, you **network** with your peers, industry experts and potential employers at annual conferences, through committee work, and task forces.*

*This provides **job opportunities, mentorship and guidance** on **new trends and best practices** in clinical/biomedical engineering.*

*Joining a professional organization can help **boost your career** at **any stage**.*

## Polling Questions

**MDEXPO**

Orlando, FL • October 29-31, 2023

## Polling Questions

- Are you a member of a professional (national/state) organization?
- Are you an office bearer of a professional (national/state) organization?
- Are you part of a committee/task force of a professional (national/state) organization?
- What part of your career are you at right now?

# MDEXPO

## Membership

The ACCE is building a strong profession, a credible profession, a dynamic and flexible profession. ACCE membership gives you advantages that will enhance your career now and for many years to come by:

- Representing your interests to legislators and regulatory agencies
- Giving you instant access to valuable technical information via the ACCE bulletin board
- Providing up-to-date information, via our newsletter and web page, so critically needed in the rapidly changing healthcare environment
- Engaging in special projects from time to time such as the Advanced Clinical Engineering Workshops, CE & CE-IT Symposiums
- Providing an opportunity to share your expertise with other professionals
- Discounted registration to major conference as AAMI, HIMSS, IFMBE
- Discounted registration rate for ACCE educational offers
- Complimentary Educational webinars
- Annual complimentary webinars
- Discounted subscription for Journal of Clinical Engineering (Print Journal + Online access): reduced from \$366 to \$99!  
Go to [www.lww.com](http://www.lww.com), search for the title and enter the below code at checkout (it will apply to the print/online product: Journal/PB-Paperback) (login to view code)
- Free access to IFMBE/Springer publishings: Medical & Biological Engineering & Computing, IFMBE Proceedings, Biomechanics and Modeling in Mechanobiology, Cardiovascular Engineering, Health and Technology.

# MD EXPO

Orlando, FL • October 29-31, 2023

## Membership

AAMI members receive a wealth of benefits and access to timely news and information.

AAMI's benefits and services help members stay informed of technology developments, improve their professional skills, and enhance patient safety.

### Member Benefits Include:

- ✓ Subscriptions to AAMI publications
- ✓ Access to standards development committees
- ✓ Access to AAMI members-only discussion groups and resources
- ✓ Deep discounts on AAMI products and educational offerings
- ✓ **Networking opportunities**
- ✓ Timely FDA and Joint Commission guidance

AAMI offers a variety of membership options to meet your needs.

- Individual Membership (including student, new professional, and associate)
- Institutional Membership
- Corporate Membership
- HTM Society Membership (for societies and associations)

Become a member today:  
visit [www.aami.org](http://www.aami.org) or call 877-249-8226.

## Certification Program

The Healthcare Technology Certification Commission (Commission) and the United States and Canadian Board of Examiners for Clinical Engineering Certification (Boards) endorse the concept of voluntary certification by examination for all clinical engineers and manage a program for certification in clinical engineering. Certification is one part of a process called credentialing. It focuses specifically on the individual and is an indication of current competence in a specialized area of engineering practice. Board certification in clinical engineering is highly valued and provides formal recognition of the knowledge base of clinical engineers.

American College of Clinical Engineering  
5200 Butler Pike  
Plymouth Meeting, PA 19462-1298  
(610)625-6067

February 16, 2018

The Honorable Senator Michael Sirotkin  
Chair, Senate Committee on Economic Development,  
Housing, and General Affairs  
Vermont State House  
115 State Street  
Montpelier, VT 05633

The Honorable Senator Christopher A. Pearson  
Sponsor S.180  
Vermont State House  
115 State Street  
Montpelier, VT 05633

Dear Senators Sirotkin and Pearson:

We are writing on behalf of the Board and the members of the *American College of Clinical Engineering* (ACCE).

Our organization represents the clinical engineering profession. As per our definition, "*A Clinical Engineer is a professional who supports and advances patient care by applying engineering and managerial skills to healthcare technology.*" Members of ACCE are employed in virtually all sectors of the healthcare industry. Clinical engineers are employed by hospitals, manufacturers, independent service organizations, regulatory/compliance agencies, and academia. We have no bias toward any particular industry segment. Our interests focus solely on the acquisition, application and support of clinical technologies in a manner that delivers safe and effective patient care.

After examining the positions and reviewing the *pro* and *con* arguments made by manufacturers, their industry associations, by healthcare organizations, and by independent service organizations, **ACCE has decided it is in the best interest of patient safety, service quality and cybersecurity to support 'right-to-repair' legislation (S.180 Fair Repair Act) and the inclusion of medical devices in that legislation.**

## ACCE News

Newsletter of the American College of Clinical Engineering

September — October 2023

Volume 33 Issue 5

### President's Message

Kim Greenwood, President, ACCE

The fall season is upon us and I hope all of you were able to take some time off to spend with your loved ones over the summer months. We installed our new Board of Directors on August 18th and we look forward to rolling out our workplan in the coming months. Six board members are carrying on in their same capacity as in 2022-23: Michele Manzoli as Secretary, Bhaskar Iduri as Treasurer (2nd Term), and Jim Panella, Kevin Kreitzman, Erin Sparnon and Ashley O'Mara as Board Members-at-Large. Moving into new positions this year are Katherine Navarro as President-Elect, Quasi Shikari as Vice-President, Ilir Kullolli as Immediate Past President for an extra term, and myself as President. I believe our leadership team brings a wealth of experience that will support the ACCE well in the coming year. I would like to take a moment to thank outgoing board member Arif Subhan, Immediate Past President, for his past and ongoing contributions to the ACCE in his various roles on the Board and committees.

We are in the process of finalizing our workplan for 2023-24. High on the list will be updating our website. Initial investigation on this task is already underway through an ad-hoc working group.

Along with the refresh of our website, we will examine whether our current name and logo should change to reflect today's realities, recognizing that our profession has evolved significantly over the last thirty years. Our membership has expanded beyond the United States and Canada since that time and on the horizon there is some interest in adding additional Boards of Examiners. We will have initial discussions over the coming months, then draft a proposed plan to rebrand our organization. The plan would then be brought to the ACCE membership for ratification.

Our ten-part CCE Review Webinar series, which started in August, will wrap up on October 11th. I wish this year's cohort of CCE candidates all the best as they prepare for their upcoming exams. The ACCE educational webinar series will continue throughout the year on a monthly basis with

wide range of topics. This fall's topics include: Membership and Value-Based Care, CCE

## Enhance Your Professional Journey at the eXchange Career Center

Back for 2022, AAMI is hosting an onsite Career Center at the AAMI eXchange! Meet face-to-face with potential employers, interview for your next job, view the most up-to-date job opportunities, and receive career guidance. The Career Center offers something for everyone regardless of your career stage.

AAMI professional development resources will be available for you to browse or download. Career Center sponsors will be in person to answer your questions or tell you about their open opportunities.

**The Career Center is located in Room 207AB of the Henry B. Gonzalez Convention Center and will be open from 7:30 a.m. - 11:00 a.m. on Saturday and Sunday, June 4 and 5.**

Participating companies this year include:

- 610 Surgical
- Agiliti Health
- Health Tech Talent Management LLC
- Kaiser Permanente Health Plan/Hospitals
- Siemens Healthineers
- Sodexo HTM
- Stephens International Recruiting
- United States Air Force
- United States Army
- United States Navy
- Veterans Administration

## AAMI Career Center

The Career Center provides 24-hour access to job openings in the health technology field, attracting thousands of professionals every week. The Career Center empowers both employers and job seekers. Employers can easily post jobs, track activity on those posting, and enjoy access to a large and growing resume pool. Job seekers can create cover letters, job alerts, and multiple resumes. Additionally, the Career Center allows job seekers to remain anonymous in their search.

**MD**EXPO

Orlando, FL • October 29-31, 2023

## 7. Mentorship Program

**MDEXPO**

Orlando, FL • October 29-31, 2023

## Mentorship Program

- Professional organizations offer mentorship programs that **connect experienced professionals with those who are newer to the field.**
- Mentorship can provide **guidance, advice, and support for career advancement.**

# MD EXPO

Orlando, FL • October 29-31, 2023

## AAMI's Mentorship Program

The AAMI mentorship program pairs AAMI members who are looking for guidance in particular interest areas with those who have expertise on a variety of health technology topics. The goals of the program are to help protégés develop the skills and knowledge necessary to succeed and grow in the health technology field; to provide a venue for them to discuss issues or concerns that are unique to health technology professionals; and to encourage long-term career planning.

Mentors and their protégés generally spend about an hour or two a month meeting in person, over the phone, or via e-mail, but the number and duration of meetings can vary depending on what works best for the pairing.

Pairs are matched on a quarterly basis, but applications are accepted year round. Apply at the links below by October 15, 2023 to be matched by November 3, 2023. After October 15, your application will be held until an early new year match time frame.

**If you are interested in becoming part of this program, please complete the appropriate application:**

## 9. Promotion of Ethics and Standards

**MD**EXPO

Orlando, FL • October 29-31, 2023

## Promotion of Ethics and Standards

- **Ethical conduct and adherence to professional standards are vital in biomedical/clinical engineering.**
- **Professional organizations promote ethical behavior and help establish industry standards.**

# MD EXPO

Orlando, FL • October 29-31, 2023

## **The American College of Clinical Engineering Code of Ethics**

**In the fulfilment of our duties Clinical Engineers will:**

- Hold paramount the safety, health, and welfare of the public.
- Improve the efficacy and safety of healthcare through the application of Technology.
- Support the efficacy and safety of healthcare through the acquisition and exchange of information and experience with other engineers and managers.
- Manage healthcare technology programs effectively and resources responsibly.
- Accurately represent their level of responsibility, authority, experience, knowledge and education and perform services only in their area of competence.
- Maintain confidentiality of patient information as well as proprietary employer or client information, unless doing so would endanger public safety or violate any legal obligations.
- Not engage in any activities that are conflicts of interest or that provide the appearance of conflicts of interest and that can adversely affect their performance or impair their professional judgment.
- Conduct themselves honorably and legally in all their activities.

**MD EXPO**

Orlando, FL • October 29-31, 2023

## **10. Career Promotion and Recognition**

**MD EXPO**

Orlando, FL • October 29-31, 2023

## Career Promotion and Recognition

- Professional organizations recognize outstanding achievements and contributions to the field through awards and honors.
- These accolades can enhance your reputation and career opportunities.

## About ACCE

ACCE is pleased to award members and colleagues alike for outstanding achievements in Clinical Engineering. Below are the awards ACCE is pleased to be a part of.

### ACCE Advocacy Awards

The ACCE Advocacy Awards have been in place since 1994. From the beginning, they were in place to recognize outstanding people in various aspects of our profession, whether members of ACCE or not. In the recent years, we have broadened the awards to include international colleagues and institutions that have advanced clinical engineering in their countries and regions. The reach and impact of clinical engineering continue to expand; we honor those who lead this growth.

- Lifetime Achievement Award
- Marv Shepherd Patient Safety Award
- Challenge Award
- Tom O'Dea Advocacy Award
- Professional Achievement in Management/Managerial Excellence Award
- Professional Achievement in Technology/Professional Development Award
- Antonio Hernandez International Clinical Engineering Award
- ACCE/HTF International Organization Award
- CE-HTM Champion Award

### Student Awards

#### ACCE Student Paper Competition

The ACCE Student Paper Competition showcases the extraordinary talents of both undergraduate and graduate Clinical Engineering students through their development of a paper involving any area of clinical engineering practice. The award will be given to a maximum of 6 individuals currently enrolled in a CE or related college level program. One award in each division (undergraduate, graduate, doctorate) will go to a student in US/Canada and an international student.

#### ACCE Student Scholarship

The ACCE Student Scholarship is designed to promote the profession and encourage eligible students to pursue a clinical engineering career path. It will be awarded at the annual members meeting in June.

### Joint Awards

#### ACCE-HIMSS Excellence in CE-IT Synergies Award

The award recognizes individuals who have best-demonstrated leadership in promoting or implementing significant synergies between the clinical engineering and information technology professions.

Each year, AAMI and the AAMI Foundation recognize health technology's leaders and innovators whose efforts have moved the industry forward through awards, grants, and scholarship programs.

Nominations for 2023 AAMI and AAMI Foundation Awards are now being accepted. The deadline is Friday, January 27, 2023. Find links to each application form on the respective award pages below:

### AAMI Foundation Awards

**The AAMI Foundation's Laufman-Greatbatch Award.** This is AAMI's most prestigious award. Named after two pioneers in the field—Harold Laufman, MD and Wilson Greatbatch, PhD—this highly regarded award honors an individual or group that has made a unique and significant contribution to the advancement of healthcare technology and systems, service, patient care, or patient safety.

**The AAMI Foundation & ACCE's Robert L. Morris Humanitarian Award.** This award—honoring the late humanitarian Robert Morris—recognizes individuals or organizations whose humanitarian efforts have applied healthcare technology to improving global human conditions.

**The AAMI Foundation & Institute for Technology in Health Care Clinical Solution Award** This award honors a healthcare technology professional (individual or group) that has applied innovative clinical engineering practices or principles to solve one or more significant clinical patient care problems or challenges facing a patient population, community, or group.

**The AAMI Foundation & TRIMEDX John D. Hughes Iconoclast Award.** This award recognizes an individual who pushes the boundaries of the HTM professional and demonstrates individual excellence, achievement, and leadership.

### AAMI Awards

**AAMI's HTM Leadership Award.** This award recognizes individual excellence, achievement, and leadership in the healthcare technology management (HTM) profession.

**AAMI & GE Healthcare's BMET of the Year Award.** This award is given to a biomedical equipment technician (BMET) to recognize individual dedication, achievement, and excellence in the field of healthcare technology management.

**AAMI's Young Professional Award.** This award is presented annually to a professional, under the age of 40, who exhibits exemplary professional accomplishments and a commitment to the healthcare profession.

**MD**EXPO
